# Correction to: Mechanisms of multiple neurotransmitters in the effects of Lycopene on brain injury induced by Hyperlipidemia

Weichun Yang, Ziyi Shen, Sixian Wen, Wei Wang and Minyu Hu\*

## Correction

Following publication of the original article [1] it came to the attention of the Research Integrity Group that the following corrections were required:

- In the “Consent for publication” section the sentence “All co-authors and participants have given their consent for publication of this article in *Lipids in Health and Disease*” should be replaced with “Not applicable”
- The section titled “Competing of interests” should be corrected to “Competing interests”
- The title of the section labeled “Author’ contributions” should be changed to “Authors’ contributions”
- The sentence “None of the authors reported a conflict of interest related to this study” should be removed from the end of the “Authors’ contributions” section.

The original article has been corrected.
